

Constellations- Philanthropist Profile

The Constellations Philanthropist Profiles database consists of leading donors and public figures in the UK. The source contains a host of information ranging from name and address to key trusteeships and affiliations, from schools of attendance to known donations. Data is updated quarterly.

Charity Commission

This is the UK Charity Commission's database of all registered and removed charities with complete filing data, ranging from organisational name and address to financials and trustee names. Data is updated monthly.

Charitable Donations

A proprietary database compiled by WealthEngine, the Charitable Donations database consists of donations, made by individuals and trusts to UK Charities. Data available from these reports includes full name, organisation, location, gift type, gift range and gift year. Data is updated monthly.

Circle of Friends

Accessed from the Advanced Search Profile page, Circle of Friends can automatically search for fellow board members, officers, trustees and directors for companies, foundations and nonprofits. This separate report can be used to identify peer relationships and potential points of introduction that may already exist with top donors, volunteers and "go to people."

Civil Aviation Authority

The UK Register of Civil Aircraft data source currently holds details of over 23,000 registered aircraft. Information contained in this report is taken directly from the United Kingdom Register of Civil Aircraft and other data sources maintained by the Civil Aviation Authority. Data is updated annually.

Electoral Commission

The database consists of over 14,000 political donations, compiled from the Electoral Commission, made by individuals in the UK since 2000. It displays full name, organisation, recipient date, donor type and amount. Data is updated quarterly.

Experian

Experian provides a portrait of the demographic, socio-economic and lifestyle characteristics of every adult and household in the UK. Drawn from a database of over 340 attributes derived from publicly available data such as the 'edited' electoral roll, Council Tax information, Shareholders Register and Companies House database and Experian's own consumer research and sophisticated models, the file provides such characteristics as gender, age, marital status, income and property value. Data is updated annually.

FAME

The FAME data source, supplied by Bureau Van Dijk, contains comprehensive, detailed information on more than 4 million companies in the United Kingdom and Ireland. The data will shed light on vital information about a prospect's business affiliations, connections and financial capacity. Data is updated quarterly.

Hemscott Public Company Directors

Hemscott Public Company Directors is a data source that covers UK registered companies with either a full or AIM listing on the London Stock Exchange. The database holds publicly listed companies with directors, their shareholdings and share values. Fields included in a report include: a public company overview, directors, share ownership and value, personal income. Data is updated monthly.

Marquis Who's Who

This data source provides biographical information on notable individuals. Information gathered contains unique personal, biographical and career related data elements not previously available in our UK data sources such as family members, education, interests and professional history. Data is updated quarterly.

Matrix Investor Data

Matrix Investor Data identifies private investors and provides an estimated private investment portfolio to highlight an individual's investment interests and affinities. With over 2.7 million Matrix Investor records, the data shares insight into ten fields including the number and type of investments, Investor Category and estimated portfolio values. Data is updated quarterly.

Top Wealth Profiles

A unique data source, Top Wealth Profiles provides information on high profile wealthy individuals in the United Kingdom. The data, compiled from multiple public sources provides information from current years dating back to 2004 and displays the specific years an individual appeared on the reporting lists. Information included if available contains a brief bio, name, title, spouse name, date of birth, education, political party, address information, net worth and donation criteria. Data is updated quarterly.

ZoomInfo

A unique dataset of biographical information on leading UK Executives, ZoomInfo reports include such information as names, titles, addresses, phone numbers, schools of attendance, past and current employment and board memberships. Data is updated quarterly.
